Kraśnik

Kraśnik - Safe City of the New Generation

BUILDING THE FUTURE TOGETHER

The largest funding package in the history of Kraśnik has become a reality!

The Swiss-Polish Cooperation Programme for Urban Development has created an opportunity for us to support development-focused initiatives that we will implement over the next three years.

Our project is focused on the modern transformation of the city across many areas. Above all, we invest in young people and the development of key competencies. Other areas of support include broadly understood public safety, green energy — including renewable energy solutions for residents, environmentally friendly public transport, entrepreneurship, and strengthening the potential of NGOs.

The project is designed to address the expectations and needs of the local community. The contribution of Kraśnik residents played a key role in shaping its objectives. The initiatives covered by the funding are the result of consultations carried out with the local community.

SZWAJCARSKO-POLSKI
Program Współpracy

Kraśnik

The project "Kraśnik – A Safe City of the New Generation" is implemented under the Swiss-Polish Cooperation Programme for Urban Development, financed by the Second Swiss Contribution to selected Member States of the European Union and the state budget.

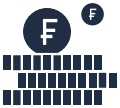
How much will we invest in development and improved safety?

Total project value: **PLN 86,526,620.50**



Funding provided under the Swiss-Polish Urban Development Programme: **PLN 75,981,452.36**

As part of the "Kraśnik – A Safe City of the New Generation" project, we are implementing 8 key Initiatives:

	Initiative	Value
1.	Kraśnik Development Academy	PLN 16.5m
2.	Kraśnik Centre for Entrepreneurship and Innovation	PLN 4.5m
3.	Safe Kraśnik	PLN 6.3m
4.	Green Energy for Kraśnik	PLN 23.9m
5.	Kraśnik Eco Transport	PLN 9.6m
6.	Modern Water and Wastewater Infrastructure	PLN 15.6m
7.	Green-Blue Kraśnik	PLN 0.9m
8.	Kraśnik Centre for NGO Support	PLN 1.6m

(KDA) KRAŚNIK DEVELOPMENT ACADEMY

BUDGET PLN
16,531,553.03

Robotics, programming and modern technologies are no longer reserved only for large cities. The priority target group of the "Kraśnik – A Safe City of the New Generation" project is the young people of Kraśnik. It is with them in mind that the Kraśnik Development Academy initiative was created.
The initiative includes a wide range of activities dedicated to children and young people from Kraśnik schools, aimed at giving them new opportunities, supporting the development of their interests and helping them build their talents through modern technologies.
Robotics classes, based on well-equipped laboratories in all educational institutions and the Centre for Culture and Promotion, supported by advanced laboratories and technology workshops at the KDA headquarters, will help create an educational and career pathway "from kindergarten to high school".
A scholarship programme dedicated to the development of passions and interests will provide additional support for students talented in science and technical subjects.

By organizing nationwide and international events for robotics enthusiasts, the Kraśnik Development Academy will become an excellent showcase for Kraśnik — a city that invests in young people and confidently embraces modernity.

What does the "Kraśnik Development Academy" offer?

- modern educational and training facilities
- technology classes for children and young people — from kindergarten to high school
- equipping 17 laboratories and organizing robotics classes in all educational institutions and the Centre for Culture and Promotion (CKiP)
- PLN 300,000 scholarship programme for talented young people
- specialized training programmes
- science festivals, tournaments, robotics competitions and meetings with innovators

KRAŚNIK CENTRE FOR ENTREPRENEURSHIP AND INNOVATION (KCEI)

BUDGET PLN
4,482,656.00

The Kraśnik Centre for Entrepreneurship and Innovation is designed to stimulate local economic activity and strengthen entrepreneurial attitudes. The KCEI will cooperate with academic institutions and business support organizations.

The “Local Business Networking” initiative will create opportunities for entrepreneurs to connect and exchange experiences. Events such as “Entrepreneurial Youth” and “Local Entrepreneurship Days”, addressed to young people, will help promote and develop a culture of entrepreneurship.

How will we support entrepreneurial residents of Kraśnik?

“Local Business Networking” — building professional connections and creating opportunities for cooperation

organization of educational events and cooperation with the KDA

developing entrepreneurial attitudes and strengthening local economic patriotism

co-working space for local businesses in the early stages of development

SAFE KRAŚNIK

BUDGET PLN
6,297,084.56

A sense of safety is one of our fundamental needs. We must ensure it on the streets, at pedestrian crossings, on the way to school and work, during walks and while returning home in the evening.

Equipped with modern, professional tools, the Municipal Police will become more effective. Better marked pedestrian crossings will make moving around the city safer.

The educational campaign "Aware Residents of Kraśnik – Safe Residents of Kraśnik", together with a series of training sessions for residents, is intended to raise awareness of potential threats and help prepare the local community to respond to emerging challenges.

What are we doing to improve safety?

MODERN, INTEGRATED CITY MONITORING SYSTEM
118 fixed cameras and 4 mobile cameras

MODERNIZATION
lighting and signage upgrades at 30 pedestrian crossings

DRON
and an identification system for the Municipal Police

ELECTRIC VEHICLE
for the Municipal Police, equipped with an air quality monitoring laboratory

TRAINING PROGRAMMES
and educational activities for residents

GREEN ENERGY FOR KRAŚNIK

BUDGET PLN
23,862,883.36

"Green Energy for Kraśnik" is the initiative with the largest allocated budget. Most of these funds will go directly to residents through a subsidy programme supporting the installation of renewable energy systems for individual households, as well as grants for housing communities and cooperatives.

Municipal buildings will also be equipped with renewable energy systems. Solar energy is more affordable and environmentally friendly. As a result, electricity and heating costs should decrease, while the air in Kraśnik becomes cleaner.

What will we do for the environment and the residents' household budgets?

37 renewable energy installations on public buildings

nearly **15,5 mln zł** million in grants for residents for their own renewable energy installations

PLN 2 million in grants for housing communities and housing cooperatives

educational campaign "Green Energy – Naturally", including a series of practical workshops and documentary reports

KRAŚNIK ECOTRANSPORT

BUDGET PLN
9,567,661.58

A modern, quiet bus that runs on time and produces zero emissions means greater comfort for passengers and real benefits for the environment.
The purchase of zero-emission electric buses, the replacement of selected bus shelters and the implementation of a passenger information system are intended to improve travel comfort and encourage residents of Kraśnik to use public transport more often. In this way, while pursuing environmental protection goals, we also contribute to improving the quality of life.

How are we improving comfort and promoting public transport?

- purchase of 2 new zero-emission buses
- installation of 7 passenger information displays
- replacement of 12 bus shelters
- public transport promotion campaign

MODERN WATER AND WASTE INFRASTRUCTURE

BUDGET PLN
15,633,132.56

We usually think about water only when it starts to run short. Efficient water and wastewater management has a direct impact on the environment and on quality of life.

Kraśnik will invest in the modernization of its water supply and sewage infrastructure. Modern, intelligent systems will make it possible to continuously and effectively detect failures, balance water flow within the network and manage water resources in a responsible way.

What are we doing to ensure responsible water management?

- **EXPANSION OF THE SANITARY SEWAGE NETWORK**
- **EXPANSION OF THE WATER SUPPLY NETWORK**
- **RENOVATION AND MODERNIZATION OF WATER INTAKE FACILITIES**
- **IMPLEMENTATION OF INTELLIGENT NETWORK MONITORING AND MANAGEMENT SYSTEMS**
- **SEWAGE TREATMENT PLANT MODERNIZATION**
- **PURCHASE OF A SPECIALIZED VEHICLE EQUIPPED WITH A WATER RECOVERY SYSTEM**

GREEN-BLUE KRAŚNIK

BUDGET PLN
938,428.00

Kraśnik's natural environment is one of the city's greatest assets and strengths. We want to protect it, enjoy it together and create welcoming green public spaces. Thanks to Swiss funding, residents will be able to benefit, among other things, from grants supporting the development of shared green areas. In addition, rain gardens will be created at schools and kindergartens across Kraśnik.

These spaces will serve as excellent places for education and for promoting environmentally responsible attitudes. Rain gardens not only look attractive, but also collect rainwater, irrigate plants and help cool the surroundings during hot weather.

What are we doing for the environment?

- 12 rain gardens at schools and kindergartens
- grants for the development of green spaces, 3 editions of PLN 150,000 each
- planting vegetation and biodiversity enhancement activities
- environmental education for children and adults

KRAŚNIK CENTRE FOR NGO SUPPORT (KCNOS)

BUDGET PLN
1,635,356.41

Associations, foundations and informal community groups contribute greatly to the development of Kraśnik. However, they often lack support or even a place where they can meet and work together.

The Kraśnik Centre for NGO Support will offer, among other things, a training and conference room, office space, workshops, training programmes, consultancy services and a grant programme for NGOs.

We want to make it easier for residents to engage in local affairs and take grassroots initiatives.

How will we support community engagement?

training programmes, consultancy and expert support for organizations

grants for local civic initiatives implemented by NGOs

renovation and adaptation of premises at 11 Sikorskiego Street for the needs of the KCNOS

offices, training rooms and meeting spaces for NGOs
